KAKARAPARTHI SRI CHARAN

Rajahmundry, Andhra Pradesh

📞 6305889231 ✉ sricharank2002@gmail.com 🔗 sricharan231 ⊙ Sricharan231

Education

Lovely Professional University   **Aug. 2020 - May 2024**
Bachelor of Science in Computer Science   *Jalandhar, Punjab*

Technical Skills

Programming: C++, SQL, Java Script,

Web Development: HTML, CSS, JavaScript, Bootstrap, React Js

Technologies: Git, AWS, Docker

Others: Object-Oriented Programming (OOP), Database Management System (DBMS)

Training

Cipher Schools   **Jan 2023 – Feb 2023**
Web Development With ReactJs

* Gained hands-on experience in developing, implementing, and maintaining an internal web application.
* Learned how to deploy and host react applications on GitHub.
* Gained an understanding of best practices for web development, including how to structure and organize code.
* Understanding of MongoDB, React, and Node.js, and how they work together to create full-stack web applications.

Programming Pathshala   **June 2022**
Web Development With ReactJs

* Specialized in Web Development with proficiency in utilizing technologies such as React.js, Bootstrap, Express.js, Node, and MongoDB.
* Learned how to deploy and host react applications on GitHub.
* Worked on the Home page of Programming Pathshala where user can navigate to internal pages easily and search for the mentor from the homepage
* Improved the overall user experience by ensuring seamless transitions between internal pages, making it easier for users to explore different sections of Mentor Page.

Projects

Photo Album Website — React Js   **April 2023**

* Domain: Web Application Development
* Proficient in utilizing a diverse range of technologies and responsive design frameworks to consistently deliver visually appealing and user-friendly websites.
* Designed and developed a web application focused on Studio management, streamlining processes related to photo album organization and access.
* Managed project codebase and version control using Git, with the repository accessible at: https://github.com/Sricharan231/Photo-Album

Weather Application — Web Application   **June 2022**

* Domain: Web Application
* Developed a weather app using HTML, CSS, and JavaScript to allow users to check current weather conditions by entering a city name.
* Implemented API integration with the OpenWeatherMap API to fetch real-time weather data for the entered city.
* Contributed to a GitHub repository showcasing the project code and documentation for future reference. https://sricharan231.github.io/weatherapp/

Construction Website — Web Development   **Apr '21**

* Designed and developed a responsive construction website using HTML, CSS, and JS, incorporating modern design elements and user-friendly navigation to enhance the user experience.
* Developed custom CSS styles and animations to enhance the website's visual appearance.
* The project also showcased effective project management and communication skills, as well as attention to detail and quality assurance.

Certificates

* React JS — CipherSchools
* MERN Stack — Programming Pathshala
